

ARRA PROJECT DATA SHEET

Airport: Jackson County Airport

Fiscal Year: 2009 (ARRA)

Project Title: Terminal Apron Rehabilitation

Priority No.:

<i>This column for FAA use only</i>	<i>Item Description</i>	<i>Fed. ARRA Cost</i>
	Terminal Apron Rehabilitation Includes rehabilitation of approx. 4,450 square yards of apron pavement	\$590,623
	Total	\$590,623

Environmental Status: This project has received a Categorical Exclusion in accordance with NEPA.

Land Title and Exhibit "A" Status: All the land under this project is owned by the Airport and shown on the current Exhibit "A".

Airport Layout Plan Status: This type of project is not typically depicted on an ALP.

Project Description:

This project will consist of the rehabilitation of the terminal apron. Work elements include pavement removal, excavation, concrete paving, bituminous paving, structural concrete and new fuel island components.

Project Justification:

This project will preserve and protect infrastructure of the national airspace system and will provide additional safety by eliminating cracks in the apron pavement and will also eliminate potential FOD. The project elements will also provide more safety and protection of the fueling island with the installation of bollards and a raised island.
